# ANNOUNCEMENT

---

## SUBJECT: William Nordberg Memorial Award for Earth Science Nominations Due: August 26, 2005

---

The William Nordberg Memorial Award for Earth Science is presented in memory of Dr. Nordberg's many pioneering accomplishments in the use of space technology in understanding the Earth system. This announcement launches the call for Nordberg Award nominations. The Nordberg Award is presented to a Goddard civil service employee who best exhibits those qualities of broad scientific perspective, enthusiastic programmatic and technical leadership on the national and international levels, wide recognition by peers, and substantial research accomplishments in understanding Earth system processes, which exemplified Dr. Nordberg's own career. This award will be presented during the annual William Nordberg lecture to be held in the Building 3, Goett Auditorium at 3:30 p.m. on **November 18, 2005**.

All Goddard civil servants are eligible for this award regardless of their occupation or of the organization in which they serve. All Goddard employees are invited to submit nominations. There is no limit to the number of nominations that may be submitted. **NEW!!** Nominations may be made by completing the nomination form found on the OHR website at: <http://ohr.gsfc.nasa.gov/awards/nordberg.htm>, and submitting it electronically to: [awards@listserv.nasa.gov](mailto:awards@listserv.nasa.gov). While brevity is desirable, the text of the nomination should clearly describe the nominee's accomplishment and its significance. Beginning with this award call, nominations submitted will be considered for a maximum of 3 years (nominators are free to update previous nominations). **Nominations should be accompanied by supporting documentation (such as curriculum vitae, publication list, patents, endorsement letters, etc.).** There is also the possibility that the nominator will be contacted by a committee member for additional information. To receive consideration for the award, nominations must be received by **August 26, 2005**. Questions concerning submission of these nominations may be directed to Theresa Wirth 301-286-4574. For questions about the Goddard Awards Program please contact Khrista White, at 301-286-9059, [Khrista.N.White@nasa.gov](mailto:Khrista.N.White@nasa.gov), or visit OHR's web site at: <http://ohr.gsfc.nasa.gov/awards/home.htm>.

I want to add my personal request to this call for active employee participation both in making nominations and in the colloquium where this award will be presented.

Arletta R. Love  
Chief, Learning and Work Life Office
